Stoneage is a product that plays on structures, thus creating a vintage effect, like a patina created over time. This structured textile tile reproduces the movement of eroded materials on the floor. A floor high in character... that is the effect of the Stoneage carpet tile in professional settings.

The trade winds blowing through your tropical idyll are measured and delicate. They flow like a gentle breeze over this subtle decorative pattern in structured, looped-pile fabric. Crafted by Balsan's in-house designers, the Alizé carpet tile is made with 100% Econyl® regenerated thread to help protect the environment. The mass-dyed yarn used to make this model is highly fade-resistant and easy to maintain. Alizé carpet tiles can also be fitted with a recycled Sonic Comfort backing on request.

Print What is this?

Stream carpet tiles are inspired by frothing water and the many tangled patterns created by the foam on its surface. With an strong design element, this structured loop pile carpet tile is ideal for commercial workspaces. A choice of 33 shades offers infinite opportunities to add a personalised touch. From the brightest hue to the simplest grey, let your imagination and creativity guide you. Made from 100% Recycled Econyl Nylon, Stream is an environmentally friendly carpet tile. GUT-certified and a good way to gain LEED credits, it combines ecology and aesthetics. Be captivated by the perpetual motion of foam on water, and let yourself be swept away by its elaborate design.

Print What is this?

A wind so cool, soft and light that it has given its name to a dance step. In mythology this breeze has the wings of a butterfly, the Zéphir carpet tile retains this lightness in its structured looped pile design. Breathe new life into your professional floorspace with this delicate, two tone pattern. Zéphir carpet tiles are available in 12 natural colours (from sandy beige to rugged chestnut, via deep ocean blue and vibrant red), bringing warmth and contrast to your commercial office space. Zéphir can be requested with a Sonic Comfort backing to improve comfort when walking, as well as acoustics.
