

**Company:** NZ Panels Group (ECNZ certified products – Bestwood, Prime Panels, Kopine)

**Document number:** EVS-18-91a

**Issue Date:** 6 September 2018

**Subject:**

**NZ Panels Group Environmental Choice certified Engineered Wood Panels: Low Formaldehyde compliance in Green Star NZ and Homestar**

The NZGBC provides a published list of recognized ecolabels and indoor air quality schemes which allow products to demonstrate compliance with the relevant Material Credits.

An Engineered Wood Product that holds a valid Environmental Choice NZ label is deemed to satisfy the low Formaldehyde emissions requirements (E1 upper limit) in Green Star NZ and Homestar.
