Client
Forman Building Systems

Product Name
Armaflex Pipe Insulation

Product Description
<p>Armaflex is very efficient low-temperature insulation, preventing condensation and reducing energy loss. Importantly, the closed-cell structure of this elastomeric foam provides a built-in barrier to water vapour. Closed cell insulation has a discrete, non-interconnected cellular structure. It is not porous, because cells have sealed walls which inhibit moisture migration or wicking inside the insulation. The multi-layered structure can't be compromised by surface punctures or tears. This product is not manufactured, nor does it contain any Ozone depleting Substances, in accordance with the manufacturer declaration</p>

Manner in which the product may contribute towards points	Legend of Symbols in EnviroSpec
Products must meet specific criteria (e.g. Paint VOC emissions, carpets, etc)	✓
Products may help achieve points by their very nature, if they are specified and installed (e.g. bicycle racks)	•
Products may help achieve an outcome but they must be used in a specific manner (e.g. lighting control and zoning systems) OR This product can contribute towards the outcome but many other products or factor influence that same outcome (E.g. Potable Water Calculator)	○
