Client
Zing Bokashi

Product Name
Zing Bokashi Composting Bin

Product Description	
<p>Bokashi is a Japanese word, translated means "fermented organic matter" and is made by treating plant-based by-products with EM and then dried for longer shelf life. Bokashi can be successfully used to treat putrescible waste, which results in a higher decomposition of organic matter and virtually no odour during process. This unique method can produce nutrient rich compost in less half the time of conventional methods, without the unpleasantness associated with composting.</p>	

Manner in which the product may contribute towards points	Legend of Symbols in EnviroSpec
Products must meet specific criteria (e.g. Paint VOC emissions, carpets, etc)	✓
Products may help achieve points by their very nature, if they are specified and installed (e.g. bicycle racks)	•
Products may help achieve an outcome but they must be used in a specific manner (e.g. lighting control and zoning systems) OR This product can contribute towards the outcome but many other products or factor influence that same outcome (E.g. Potable Water Calculator)	○

Zing Bokashi Composting Bin - Green Building Summary Sheet -

Tool	Credit category	Points available	Requirements	Contribution symbol	Contribution Potential	Details of compliance
Homestar (V2 and V3)	WST-4	2	This credit is to encourage and recognize a reduction in the amount of household waste sent to landfill through home and/or community composting.	●	2 points	Zing Bokashi offers composting facilities as notified in the HomeStar Technical Manual under the "WST-4 Composting facility" category. The product can contribute up to 2 points if used for provision of adequate internal and external composting facilities for domestic green, food and other compostable waste.
Homestar (V4)	WST-2	1	This credit is to encourage and recognize a reduction in the amount of household waste sent to landfill through home and/or community recycling and/or composting.	●	1 point	Zing Bokashi offers adequate composting facilities as notified in the HomeStar Technical Manual under the "WST-2", contributing 1 point in this credit.
Green Star NZ (Interiors 2009)	MAT-10	1	This credit is to encourage and recognize the allocation of a dedicated space for recycling and composting in commercial spaces.	○	Contribution potential	Zing Bokashi provides a suitable solution for composting in a commercial office environment. Please note the points in this credit are made up of a combination of the following items: 1) Allocating sufficient space based on occupancy levels 2) Having an official waste minimization plan 3) Having a company contracted to help pickup the recycling and/or composting.
