Client
Showerdome Ltd.

Product Name
Showerdome

Product Description
<p>Showerdome is a clear acrylic dome that simply attaches to an existing shower cubicle to prevent steam from forming in the bathroom. The product is manufactured in NZ and distributed by Showerdome Ltd. There are 10 different shapes and sizes of Showerdomes to fit most existing and new showers on the market.</p> 

Manner in which the product may contribute towards points	Legend of Symbols in EnviroSpec
Products must meet specific criteria (e.g. Paint VOC emissions, carpets, etc)	
Products may help achieve points by their very nature, if they are specified and installed (e.g. bicycle racks)	
Products may help achieve an outcome but they must be used in a specific manner (e.g. lighting control and zoning systems) OR This product can contribute towards the outcome but many other products or factor influence that same outcome (E.g. Potable Water Calculator)	
<p>Disclaimer - Please read this carefully</p> <p>Each Building Environmental Rating Tool and Scheme nominated herein is owned and operated by its respective operative organisation, independently of EnviroSpec Ltd., and EnviroSpec Ltd. equally operates independently of any nominated rating scheme. The information represented on EnviroSpec is not endorsed by any of these organisations in a direct manner and any decision regarding final approval or refusal of points and certifications where the nominated product is used is at the final discretion of the respective owners and operators of the nominated Building Environmental Rating Schemes, and any network of assessors or auditors that are accredited to operate under their assessment structure, in accordance with all associated technical manuals, rules and guidelines. For detailed technical information about each Building Environmental Rating Schemes and product related criteria please refer to the appropriate technical manuals. Tool	Credit category	Points available	Requirements	Contribution symbol	Contribution Potential	Details of compliance
Homestar (V2 + V3)	EHC - 7	4.5	<p>Up to four and a half points are available where it is demonstrated that indoor moisture levels have been managed through one or more of the four methods listed below.</p> <p>(1) Minimising potential moisture sources 1.1 points</p> <p>(2) Minimising condensation 1.6 points</p> <p>(3) Providing localised ventilation at moisture sources 1.4 points</p> <p>(4) Ensuring moisture removal on a house-wide scale 0.4 points</p>	●	0.1 points	<p>This credit aims to encourage and recognise measures that control indoor moisture levels, improve indoor environment for occupants, reduce respiratory illnesses and the risk of mould, and to increase the durability of the home. Cumulating points involves a combination of many small initiatives and products. Using a showerdome product is an important feature in helping achieve points required under the <i>"Minimising potential moisture sources"</i> category of this credit and is an easy, cost-effective way of help achieve a desired Homestar rating.</p>
