Manufacturers Statement

Premier Glasswool & 100% Polyester Thermal & Acoustic Insulation
Eco Choice Aotearoa Certification

April 2026

PIL Group Limited is a NZ owned and operated manufacturer and importer/distributor of quality thermal and acoustic insulation; ranged and stocked to support building designers, specifiers, and the wider construction industry to create a healthy and energy efficient built environment.

Our safe and friendly 100% polyester insulation is proudly manufactured in our production and warehousing facility in Ngāruawāhia, and our glasswool insulation range is imported from our longstanding manufacturing partner in Taiwan. We also operate a bulk-store and distribution centres in Auckland and Christchurch to support our customers with easy and fast access to our products.

We distribute our Premier brand of insulation through a national network of Premier Insulation installers. These are independent businesses licensed to use the Premier brand, and each operate within an exclusive territory, but together provide a nationwide network and brand presence. Our Premier network provides a full supplied and installed service.

Selected products from both polyester and glasswool ranges are BRANZ Appraised and Eco Choice Aotearoa certified.

At the foundation of Eco Choice Aotearoa are the technical specifications it develops, setting the most stringent, up to date standards for environmental compliance in business. New Zealand companies who can meet or exceed these specifications are permitted to display the Eco Choice mark, widely recognised by New Zealanders as a badge of environmental leadership.

Eco Choice Aotearoa operates to internationally recognised standards and principles, and is a member of GEN, the Global Ecolabelling Network, which links a world of environmentally preferable products and services.

Our Eco Choice Aotearoa certificate can be viewed at;

Mangere, Auckland 2022

While only selected products are fully certified, all our Premier Insulation branded glasswool and polyester products are made from the same raw materials, made to the same specifications, and are manufactured in the same production plant, and under the same processes and conditions as the certified range.

If you would like more information about our branded offerings, our Eco Choice Aotearoa certification or about the performance and specification of our products, I would welcome your call. I can be contacted on Mobile 021 936 159, or email Rob@PILGroup.co.nz.

Yours sincerely
